

Please note the following corrections/ clarifications in Assignment 2 :

1) In Q1, assume that there is no repetition of elements in the input integer array.

2) In Q3, as specified in the question, there is no space in the given input string.

Hence, the sample input is modified as follows:

**Sample Input1:** Honeybee  
ee

**Sample Output1:**Honeyb

3) For Q3, for more clarity one more sample input is given as follows:

**Sample Input3:** aaab  
aa

**Sample Output3:**b
